I am a software engineer with over 1 year of industry experience and 1.5 years of experience teaching modern web technologies to bootcamp students. I communicate proactively, am procedure-oriented, and enjoy data-driven decision-making.

EMPLOYMENT HISTORY

ThinkNimble, Washington, DC
Software Engineer I, *March 2020 - Present*
>> Full stack web development using VueJS, ReactJS, and Django
>> Work on monolith-architecture and microservices-architecture production applications
>> Proactive communication with intra-company and client stakeholders throughout Agile development lifecycles

Flatiron School, Washington, DC
Lead Instructor In-Training, *August 2019 - December 2019*
>> Delivered core curriculum lectures to 40+ students.
>> Lecture topics included: • HTTP • REST • MVC Framework • Ruby on Rails • JavaScript (ES6) • ReactJS.
>> Assessed student performance and decided students' advancement through the Web Development Program.
>> Made decisions about students' advancement through the Program, by assessing student performance.

Flatiron School, Washington, DC
Software Engineering Coach, *August 2018 - August 2019*
>> Coached 30+ students through the Web Development Program and worked with dozens more directly.
>> Led "Intro To Front End Development" workshops, teaching HTML, CSS, and JavaScript to potential students.
>> Developed a "Coaches' Onboarding Manual" to help the company with its scaling.
